INTRODUCTION: Welcome to the University of Michigan’s Detroit Metro Area Communities Study survey! Your participation in this study is completely voluntary. You may skip any question that you do not wish to answer. However, your participation is important because it helps researchers understand Detroiters’ policy priorities, how they perceive changes in their community and how they are experiencing the impact of COVID-19. This information can be used to inform policy decisions affecting the region.

We expect that this survey will take you approximately 20 to 30 minutes to complete. Please remember there are no right or wrong answers, we are just interested in what you think. We take our promise of confidentiality very seriously. All of your answers will be kept strictly confidential. No personally identifying information will ever appear in any study report. If you find that you are disturbed by the content of any of the questions or if you have any questions about the study, please contact us at 734-764-4145.

We may contact you in the future to participate in additional surveys. If you do not wish to complete this survey or any future Detroit Metro Area Communities Study surveys, please let us know by calling 734-764-4145 or sending an email to [DMACS-info@umich.edu](mailto:DMACS-info@umich.edu) with “opt out of surveys” in the subject line. Please provide your name and address in the email or voicemail and we will not contact you about DMACS surveys in the future.

A brochure with additional information about the study is available on the DMACS website at [detroitssurvey.umich.edu/about/brochure](http://detroitssurvey.umich.edu/about/brochure). An information sheet will also be available to download for your records at the end of the survey.

Plasma-only donation takes about 60 minutes and uses a high-tech machine while whole blood donation takes about 10 minutes and does not use special machinery. Another difference is that some people who donate blood plasma get paid for their donations, while whole blood is usually donated for free.

*During the time that slavery was legal (1619-1865), and through the Jim Crow era (1877-1968), federal, state, and local governments prevented many Black people from doing things such as earning income, owning property, opening bank accounts, attending school, and accessing health care.
